EXCALIBUR  
WOODSTACK  
FLAUTO

Design by ErvasBasilicoGirardi

# CAON

Caon arreda affonda le sue radici nella tradizione della cultura del design, nella qualità del materiale naturale e nella continua ricerca di nuovi valori.

Ci siamo sempre contraddistinti, in Italia e all'estero, per i nostri prodotti curati nelle finiture e nei dettagli.

Il made in Italy, l'attenzione alle tendenze contemporanee, l'eleganza e la raffinatezza del legno, il profumo di sentire e di emozionare sono le linee guida che ci hanno ispirato per le nuove collezioni di appendiabiti Excalibur, Woodstack e Flauto.

Appendere, appoggiare, dimenticare, arredare, completare, definire, accompagnare, accarezzare: oggetti garbati e delicati che imparano dal passato e vivono nella contemporaneità.

# CAON

*Caon arreda sinks its roots into the tradition of the design culture, in the quality of the natural materials and in the continuous research of new values. We have always distinguished ourselves, in Italy and abroad, thanks to our products, with their perfect finishes and details.*

*For the creation of our new coat hangers collections "Excalibur", "Woodstack" and "Flauto", we have been inspired by the principles of the Made in Italy, by the contemporary trends, by the elegance and the refinement of the wood, as well as by the perfumes of feelings and emotions.*

*Hanging up, leaning, forgetting, furnishing, completing, defining, combining, caressing: these nice and delicate objects have learned from the past and live in the contemporaneity.*

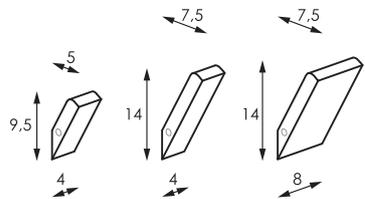

# EXCALIBUR
